

## *Contents :*

Path Loss Minimization in GSM Networks - A study of 2 Metaphorless Optimization Approaches	01-04
Chemical composition, functional and phytochemical properties of black, brown and white varieties of Nigerian sesame seeds	05-13
Implementation of an Automated Blasting System Using Internet of Things (IOT)	14-23
Modeling of a Multidimensional Data-Driven Approach (MDDA) for Optimized ML Model in Poverty Detection	24-38
Soil Systematic Classification Research of Renhe Town and Other Areas in Renhe District of Panzhihua City	39-66
Legal tender VS genetic tender: golden spoon VS golden key	67-71
Fast Reference Frame Decision Algorithm for Multi-Reference Frame Motion Estimation in H.265	72-79
Ore Modeling and Reserve Evaluation Using Isometric Log-Ratio Transformation and Sequential Gaussian Co-Simulation – Application on The ONUPI Coal Field, Kogi State, Nigeria	80-123
Comparative Study of Path-Loss Minimization Using Rao- Type Metaphor less Optimization Approaches	124-127
Toxicological and Cosmetic Functional Properties of Microwave-Assisted Pereskia bleo (Kunth) DC Leaves Extract	128-143
The Uncertainties of Ecosystems with the Fluvial Hydrodynamics LUO Ching-Ruey (Edward)	144-153
Modeling of an Electrohydraulic Servo System with Friction Load Based on Experiments	154-160
Legalbasis of the European Union'sdigitisation policy - analysis of selected developments	161-167
Controlling Chaos in Two Lorenz Systems by Delayed Coupling	168-176
