

Contents :

Investigation of Water Quality of Doğantepe (Altındağ/Ankara) Forest and Stream in Terms of Heavy Metals	01-09
Geographical origin differentiation of Tectona grandis wood using Near Infrared Spectroscopy and Support Vector Machine Classification	10-19
Development of a New Generation Hybrid System for the Electric Vehicle	20-24
A Unified AI Model for Supporting Dysgraphia Learners Using Visual Scaffolding Techniques: A Systematic Literature Review	25-33
Tempering Heat Treatment Impact on Medium Carbon Steel: Microstructure and Mechanical Behaviour	34-42
Investigation Of Leachate Percolation to Groundwater Depth Around Choba Campus, University of Port Harcourt	43-50
Automatic Modulation Classification with Bayesian Neural Network	51-59
Strategy Execution and Application for the Impact of COVID-19 on Society --- Analyses on Sustainability and Resilience with the Application of Artificial Intelligence Countermeasures—	60-82
Hydrothermal treatment of Populusdeltoides wood: Analyses of colour and chemical changes through FT-NIR	83-91
Prediction Model for Adolescent Pregnancies Using Machine Learning: A Review of Literature	92-98
